

A Capital Idea

As a cyclist you know the squeaky wheel gets the grease and March 24th is our day to take the cycling cause to the Capitol – your voice combined with others will make a difference!

The Florida Bicycle Association invites you to Tallahassee for the 3rd annual Florida Bike Summit on Thursday, March 24, 2011. Our press conference in the Capitol Courtyard will start at 11:30AM. Registration is free. Your time and presence will help in getting the attention of our legislators that *their* constituents demand the rights of bicyclists to be taken seriously. They won't know unless you tell them.

You don't have to be ultra articulate, and you don't have to have multiple talking points in bullet form. All you have to do is say, "I am a citizen of your district, and I support enhanced penalties for moving vehicle violations that cause serious injury or death." Done. Have a few more minutes? Here's your next sentence: "I also support distracted driver legislation that makes violations a primary offense." Wow, not only easy, but now you're feeling pretty good to have stated your case.

Registration is now open for the Florida Bicycle Summit. Sign in, show up and speak up for cycling! For more information, visit
