MPOAC Legislative Newsletter
01/18/2020

Overview

Greetings and Welcome to 2020! It is good to be back with you in the new year and to be reporting the details of the first week of the full Florida Legislative Session. So, what is happening in the Legislature and in transportation? Transportation has been relatively quiet, there are a couple of bills we are watching and I have highlighted them in next couple of paragraphs. The hot button issues facing the legislature at this time are gun control proposals, parental consent for minors seeking abortions, debates about how to define and address racially biased groups, voting rights and some other issues bubbling around. To touch on a couple of these issues I will mention the bill which would close the gun show loophole as it is known and in Florida passing anything that resembles gun control is difficult. That has not been a characteristic of Florida in years past, however this year may be different. We will see. The bill requiring minors to obtain parental consent prior to getting an abortion has been a big debate and the bill is advancing. This will suck the oxygen from the session as will the gun show bill. If both bills pass early, then there may be renewed focus on other topic areas. For now let's see what comes from the spotlight issues and enjoy not being the center of attention.

The first transportation bill to highlight in this week's newsletter is from Representative Fetterhoff. The bill is HB 1315 and it is a general transportation bill. The content of the bill cleans up statutory language to make the operations of Florida DOT easier, more sensible and efficient. There is one provision in the bill that advances the submittal date of the MPO project priorities from October 1st to August 1st. I emailed the MPOs to ask if this would create difficulties in the MPO schedules and operations. The answer was universally NO, no difficulties and in fact many MPOs are already submitting their project lists prior to August 1st annually.

I ask that you support HB 1315 and request your legislative delegation to support this bill as it is written now.

It can be amended and we will evaluate each amendment as they appear. Expect a Senate companion bill soon, when it is filed I will send out an email notifying you.

The second set of bills I want to highlight this week is from Representative Fine in the House and Senator Perry in the Senate and it relates to traffic safety. The bills are HB 1371 and SB 1000. These two bills will require a mid-block crossing to have flashing signals installed or remove the mid-block crossing. Florida has a reputation of injuring and killing our pedestrians and cyclists, known as vulnerable road users, at a higher rate than other states. We could go into a deep dive on the reasons why such as having a climate that is conducive to year-round cycling, etc. That is not the purpose of these bills or my writing about these two bills. The bills are the direct result of a 12 year-old who was hit by a car at a mid-block crossing that was not signalized. We will never oppose traffic safety, it is a priority of MPOAC and the MPOs to make our system safer for our residents and visitors. The concern here is in the cost of implementing the bill if passed. We will work with the sponsors

to find a way to make our system safer and work within the limited amounts of funds we have available to spend. Through data analysis we can determine the best way to apply our limited dollars to insure the greatest safety for our residents and visitors. To apply signalization at every mid-block crossing would probably exceed the annual budget of many counties and cities. The bill is aiming to do the right thing and safety is not wrong, we need to focus this bill a bit.

The last set of bills we will cover in this week's newsletter is SB 1192 by Senator Gruters and HB 6061. These bills will repeal the aviation fuel tax which is used to fund improvements to our public airports in Florida. Senator Gruters is also the Chair of the Republican Party of Florida which makes him a very powerful man. It will hard for members of the Senate to vote against this bill given the statewide position that Senator Gruters holds. On the other hand, our airports like any transportation facility need to be maintained and improved. This bill, if passed, could have a significant negative impact on airports.

The regular session began on January 14th and our capitol is a busy place once again. Bills appearing before a committee are shown in the bill details in **RED**. All new bills and any updates to bills shown below will be shown in **RED** so you can quickly distinguish between updates and old news. A lot of new bills have been filed since the last newsletter, expect more to be filed over the remainder of the session. Your MPOAC Legislative Update will keep you apprised of newly filed bills and changes to existing bills.

Grab a cup of coffee and enjoy this edition of the MPOAC Legislative Update.
